Notes:

1 Affected outlets were immediately secured after receiving verbal communication from the lab on results exceeding the recommended level of 15 ppb.

2 Post-remediation sampling was conducted. Additional corrective actions were implemented and final results below recommended level of 15 ppb for sample collected and are shown on the table.

Notes:

Affected outlets were immediately secured after receiving verbal communication from the lab on results exceeding the recommended level of 15 ppb.
Post-remediation sampling was conducted. Additional corrective actions were implemented and final results below recommended level of 15 ppb for sample collected and are shown on the table.
